

Annual Sustainability & Commitment Report

Veechem Industries (Pvt) Ltd

1. Introduction

Veechem Industries (Pvt.) Limited is a sister concern of Farid Ahmed Vawda & Co. Veechem Industries (Pvt.) Limited functions as a manufacturer of entire range of products for Textile & Leather. VeeChem Industries offers complete packages of high-quality pigment powders, pigment emulsions and auxiliaries for all fields of textile applications. With our state-of-the-art equipment for pigment emulsions and recent innovations introduced in printing product and process solutions we have excelled in the Pakistan textile market. Our team confirms its focus on customer needs as well as its strong commitment to economic and ecological reliability and sustainability.

With a strong commitment to sustainable manufacturing practices, Veechem Industries (Pvt.) Limited is aligned with the ZDHC Roadmap to Zero Programme, ensuring compliance with internationally recognized environmental and chemical safety standards. The company caters to a diverse client base across Pakistan, delivering products that meet global benchmarks for performance, environmental responsibility, and regulatory compliance.

Supported by a team of experienced technical professionals and modern production facilities, Veechem Industries (Pvt.) Limited continues to strengthen its position as a trusted partner for safe, sustainable, and high-performance pigment solutions.

2. Policy Commitments

Veechem Industries (Pvt.) Limited is dedicated to responsible chemical management and environmental stewardship in alignment with global best practices. Our publicly accessible policies reflect our commitment to sustainability and our active role in minimizing environmental impact across the value chain.

Our key commitments include:

- **ZDHC Roadmap to Zero Programme Participation:**
Active engagement in the ZDHC initiative to eliminate hazardous chemical discharge from manufacturing operations.
- **Compliance with ZDHC MRSL:**
Ensuring that all raw materials, intermediates, and finished products fully comply with ZDHC Manufacturing Restricted Substances List (MRSL) requirements.
- **Transparency and Traceability:**

Veechem Industries (Pvt.) Ltd

Maintaining open and transparent communication with stakeholders through publicly available environmental and chemical management policies.

- **Continuous Improvement:**

Ongoing investment in employee training, process optimization, and sustainable sourcing practices to meet evolving regulatory and environmental standards.

Through these commitments, Veechem Industries (Pvt.) Limited reinforces its role as a responsible manufacturer contributing to a cleaner and safer textile supply chain.

3. Key Sustainability Achievements (Past Year)

3.1 Wastewater Management & Testing

- Conducted comprehensive wastewater testing in accordance with ZDHC Wastewater Guidelines.
- Achieved full compliance with permissible limits across all tested parameters.
- Ensured zero discharge of hazardous chemicals.
- Maintained transparency by sharing test results with relevant stakeholders.

3.2 Chemical Substitution & Safety

- Successfully eliminated several hazardous substances listed under ZDHC MRSL.
- Introduced environmentally friendly pigment formulations without compromising product quality.
- Strengthened supplier compliance programs to ensure adherence to ZDHC standards.

3.3 Resource Efficiency & Environmental Impact Reduction

- Reduced overall energy consumption by **10%** through process optimization and efficient equipment utilization.
- Achieved an **8% reduction in water consumption** by implementing water recycling and reuse systems.
- Improved waste management practices, resulting in a **15% reduction in landfill waste**.

These achievements demonstrate our continued progress toward sustainable and responsible manufacturing.

4. Certifications & Audits

The company maintains a comprehensive portfolio of certifications and undergoes regular third-party audits to validate compliance with international standards related to environmental management, quality assurance, and occupational health & safety. These certifications reinforce our credibility and commitment to sustainable operations.

4.1- Current Certifications

Certification / Standard	Scope / Description	Status / Validity
ZDHC Gateway – MRSL Level Compliance	Verified compliance with ZDHC Manufacturing Restricted Substances List (MRSL)	Active
ISO 9001:2015 – Quality Management System	Ensures consistent product quality and continuous improvement processes	Valid
ISO 14001:2015 – Environmental Management	Framework for environmental responsibility and regulatory compliance	Valid
ISO 45001:2018 – Occupational Health & Safety	Safe workplace practices and risk management systems	Valid

5. Sustainability Targets & Future Commitments

5.1 Chemical Management & Safety

- Maintain **100% compliance with ZDHC MRSL** across all materials and products.
- Achieve an additional **10% reduction in hazardous chemical usage** through substitution with safer alternatives.
- Increase supplier compliance, targeting **100% ZDHC alignment among packaging suppliers** (from **83% in 2024**).

5.2 Wastewater & Environmental Impact

- Sustain **100% compliance with ZDHC Wastewater Guidelines** in all quarterly assessments.
- Reduce **Chemical Oxygen Demand (COD)** levels in wastewater by **5%** through process improvements.
- Implement **real-time wastewater monitoring systems** to enhance operational control and transparency.

6. Effluent Treatment Plant (ETP) Management

Veechem Industries (Pvt.) Limited operates a dedicated Effluent Treatment Plant (ETP) to ensure that all industrial wastewater is effectively treated prior to discharge. The ETP is designed and maintained in accordance with ZDHC Wastewater Guidelines and local environmental regulatory requirements.

The treatment process includes primary, secondary, and, where required, tertiary treatment stages to remove contaminants, reduce Chemical Oxygen Demand (COD), and ensure compliance with permissible discharge limits. Regular monitoring and laboratory testing are conducted to verify treatment efficiency and environmental compliance.

The company continuously upgrades its ETP infrastructure by integrating advanced treatment technologies and automation systems to enhance operational performance, ensure real-time monitoring, and minimize environmental impact. Trained personnel are assigned to manage ETP operations, ensuring consistent performance, proper chemical dosing, and adherence to safety and environmental protocols.

Through the effective operation of its ETP, Veechem Industries (Pvt.) Limited demonstrates its commitment to responsible wastewater management and environmental protection.

7. Contact & Transparency

Veechem Industries (Pvt.) Limited remains committed to transparent communication with stakeholders regarding its environmental performance, sustainability initiatives, and ZDHC compliance progress. Relevant information, policies, and performance data are made accessible to customers, partners, and regulatory bodies upon request.

8. Measurement & Data Management

Veechem Industries (Pvt.) Limited employs a structured approach to monitoring environmental and chemical safety performance through defined Key Performance Indicators (KPIs). Data is collected, analyzed, and reviewed on a quarterly basis to ensure compliance, identify improvement opportunities, and support informed decision-making for continuous enhancement.

8.1-Chemical Usage & Testing Results:

Parameter Tested (ZDHC Wastewater Guidelines)	Unit	Limit Value	2025 Result	Compliance Status
pH	—	6–9	7.3	Compliant
COD (Chemical Oxygen Demand)	mg/L	≤ 250	192	Compliant
Heavy Metals (Lead, Cadmium, Mercury, etc.)	mg/L	As per ZDHC	ND*	Compliant
APEOs	mg/L	≤ 0.01	ND*	Compliant
Total Suspended Solids	mg/L	≤ 50	34	Compliant

8.2- Supplier ZDHC MRSL Compliance

Category	Total Suppliers	% Complying with ZDHC MRSL
Pigment Raw Material Suppliers	14	100%
Packaging Material Suppliers	6	83%

8.3- Key Sustainability KPIs (2025)

KPI	2026 Targets	% Improvement plan
Water Recycled & Reused (%)	28%	-8%
Hazardous Chemical Reduction (%)	-100% ZDHC MRSL	Full Compliance
Energy Consumption (kWh/ton of product)	101KW/H	-10%
